A boutique hotel composed entirely of sustainably sourced materials fits in with the natural surroundings of the island and serves as a luxurious retreat for guests. Situated on a cliff (with access to Tibay and private beaches), this boutique hotel has a small cluster of villas and bungalows with private plunge pools overlooking the sea. Secret Bay is the second largest boiling lake in the world, and is only 2 km from the town of Portsmouth in Dominica, all accommodations have beach access, privately tiered decks and personal service to rival any other accommodation.

Rustic-chic décor with local wood and modern furnishings are inviting and sleekly simple. Included in your stay is a concierge to organize your excursions and provides for snorkel gear, paddleboard and kayaks waiting for your arrival. The open deck off each villa has an instagram worthy view, an inviting plunge pool perched on the edge, and everything you could ask for in luxury.

Your dedicated attendant will pre-stock your kitchen with favourite foods, including breakfast essentials, snacks, beverages, and locally-grown organic produce. You can cook in the European-style gourmet kitchen or have your villa attendant prepare it for you.

Zing Zing is the on-site restaurant. A menu is conspicuously absent so that the chef can plan a three-course, seasonal menu using local and foraged ingredients. With the amazing views of Tibay Beach, Zing Zing is a date-worthy location with a canopy style roof, open kitchen, and private dining room. Beautiful sustainably sourced wood has been used to build and decorate the restaurant adding stylish clean lines to stylishly simple food.
